

Drum Works School Holiday Projects

Drum Works uses drumming to inspire creativity, build social cohesion and empower young people.

Experienced professional musicians facilitate inclusive music sessions that have been shown to develop participants' confidence and resilience, foster a sense of community and belonging, and help create a positive attitude to learning.

Holiday Projects

Over the summer holidays we are offering short-term projects where pupils will work with Drum Works leaders to learn rhythms and compose their own beats, culminating in a performance of their own work.

Holiday projects could be particularly valuable for more vulnerable pupils. Our leaders are great at working with a range of needs, disabilities, and behaviours, ensuring that everyone can participate in sessions on an equal footing.

The costs below are intended as a guide—we can be flexible about the number and duration of sessions we deliver as part of a project so please contact us to discuss your requirements.

Half-day workshop—£600 +VAT

Full-day workshop—£750 +VAT

Five-morning / five-afternoon project—£2,000 +VAT

Use of our drumming equipment is included in the price—if you have your own drums let us know and we'll adjust the fee accordingly.
